Dear Norman,

Received your letter Monday
was glad to hear from you
again.

How's the world treating
you by now? You never did
say much about your school-
ing. Do you like it or not.
Just what are you studying?
How long are you in the
class room. How early do
you have to get up?

Got a letter from Carolyn
Monday also. She said they
get up at 4:45 AM as Charley
has to be on the base at 6 AM.
I guess he's been late
three times already, so they
told him if it happens again
he will have to send

her home, + him live at the post. I dont know if they really meant it or not. But thats what she wrote.

She said Vicki is walking all over the place now + been eating like a horse. I'll send your shoes + shirts next week if thats O.K. with you. seems like I cant get caught up here at home anymore.

Did you ever take care of that little matter I wanted you to do before you left? you said you would when you got down there so I hope you did, it will be one less worry of my mind.

Donald is planning on getting married the 20th of April. Hes put it off so often I wont believe it till I see

it. Norm said his car is giving him so much trouble again, that he will probably have to trade it off for a different one. That Bob still doesn't have his car fixed its still in our garage + Dad has to have the pick up set out.

The weather sure has been nice here. Got up to 81 degrees Monday. I bet it was plenty hot down there too.

Well Norman news is some around here so will close for now. Take care of your self + write soon. Bye have been looking for a letter so write when you can. Love

Mom + Dad.
