all the time. It's like she has
her own big baby doll

Clay's hair is so cute & curly.

Mother's Notes

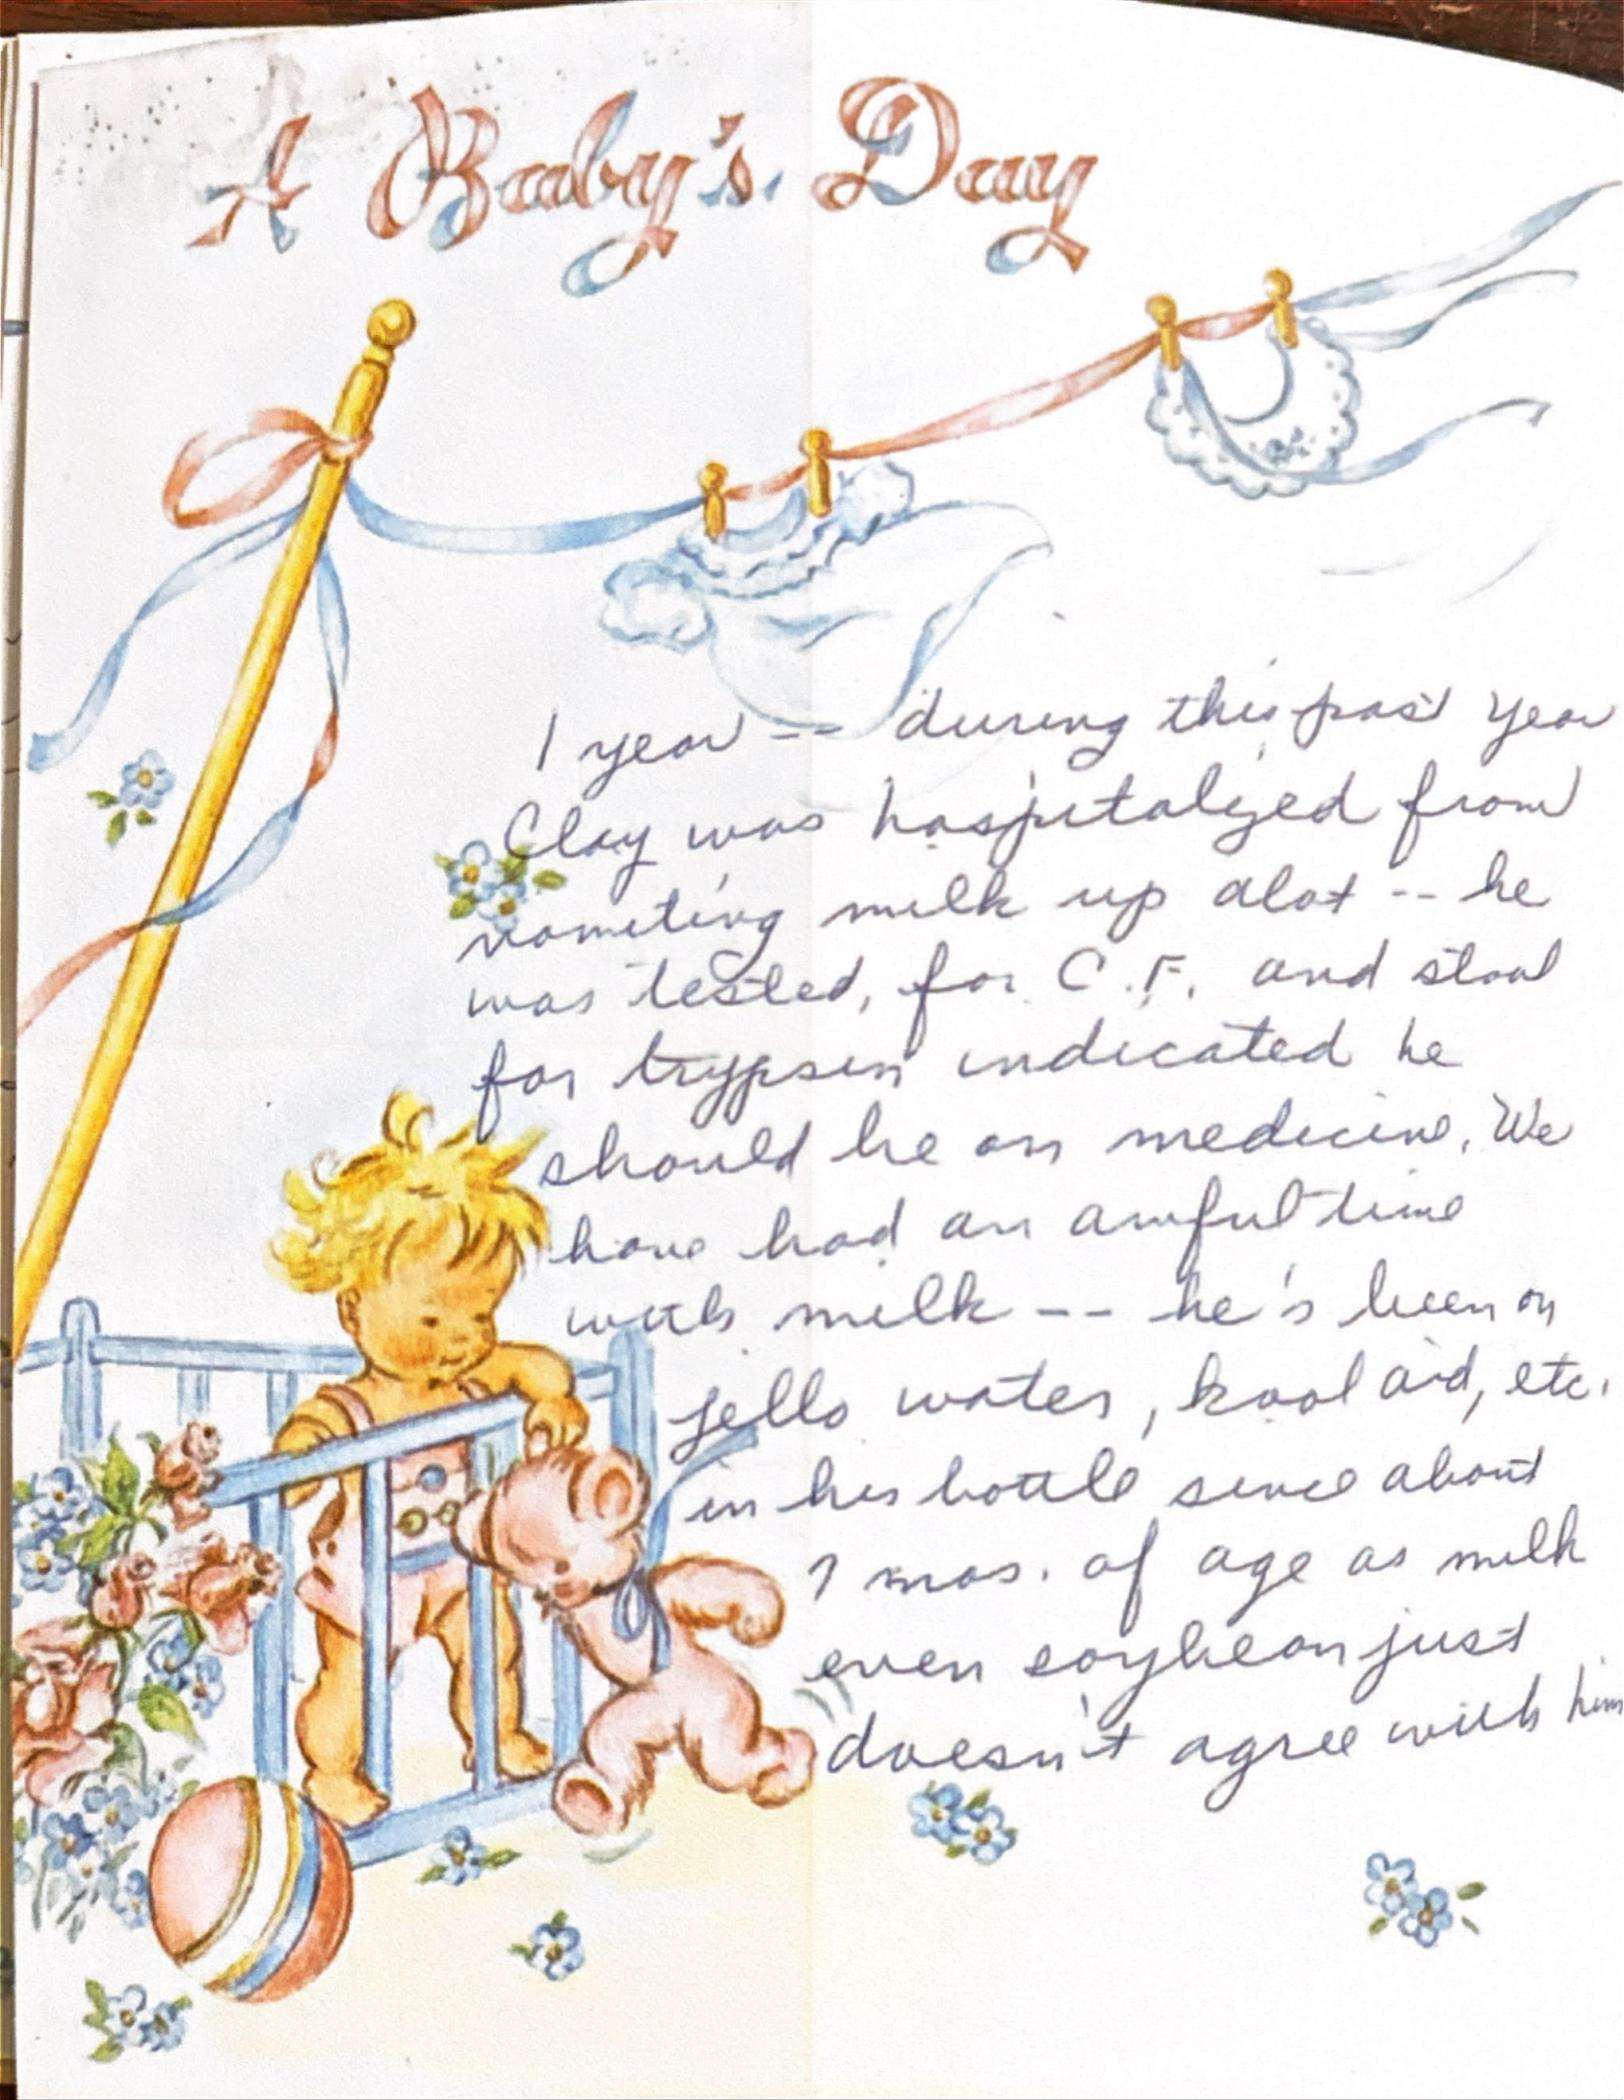

Clayton came into this world pretty fast -- I checked in hospital at 8:00 a.m. and he was born at about 8:45 a.m. He is a nice size baby -- the biggest I've had and quite bright-eyed. I know he's going to get lots of attention at home because Rhonda, Rob & Clint are all excited to become helpers.

Doctor McGuire wants to do a C.F. test on him before he leaves the hospital.

LATER -- C.F. test shows OK but will need to repeat it later on after he gets a few months older.

2 weeks old -- Taking care of Clay is so much fun as it's been several years since I've had a baby around.

A Baby's Day

1 year -- during this past year
Clay was hospitalized from
vomiting milk up alot -- he
was tested, for C.F. and stool
for trypsin indicated he
should be on medicine. We
have had an awful time
with milk -- he's been on
gello water, kool aid, etc.
in his bottle since about
7 mos. of age as milk
even soybean just
doesn't agree with him

1 year - we all continue to love Clay
and hold him alot -- he just started
walking and thinks he's pretty big!
He's been sitting and crawling but
just didn't think walking would be
that much fun.
