

² why though! Maybe because there
isn't anyone down here that's as
much of a pest as you are.

We have gone out to eat every
night. I have had my steady diet
of Mexican food. I alternated. Every
other night I had fried chicken.
I could live on that Mexican food.
They have a place here that can't
be beat! I'm sure you would love
it, too.

It's rained down here a couple
of times. Not really enough to
matter. Sounds like Kansas is
really getting it's share.

The other day my Aunt and I
went to a place called "100 Club".
It's quite the place! They sell
that German beer. I had some
and it beats Coors by miles.

³Then I had some Scotch & water
that turned out to be quite a day.
Something happened that night, so
I've cut down on my drinking. I
fact I haven't had anything since.
It wasn't anything serious, so just
wait until I get home!

I got this radio schedule out of
the Saturday paper. The two top
ones seem to be KXIZ and KRAY.
KGNC has a program called "Melodies
for Moonlight." It's like KAKE. I
usually listen to it every night.

So you need your knob! Well,
what would you do if I told you
that I have lost it. (I really
haven't, but I'm still debating
about giving it back. I've grown
like that little thing. etc.)

Well, this is enough nonsense
for now. Bye-bye.

Truly yours,
Connie

P.S. Hope to see you soon. Be good
and take care of yourself.

Tell your folks and brothers "hi" to
me. I meant to put this in the first
letter. Forgetful, aren't I?
