Wichita Falls
March 1, 1962

Dear Norm,

We just received
your letter yesterday
so mom said she
would write in a
couple days. I write
to you again too.

I am so anxious
to find out how you
express time in
"hundred hours."

Everybody's okay
except Alan has had
a severe cold and
stayed home a few
days from school.

If you don't
know it either way!
I'll tell you. John

They made a three
orbital flight on
Feb 20, 1962. They
say it went over
El Paso. Was the
weather clear so
you could see it?

Our television
people took most
out of our good one
so we had our
old one. It didn't
have a picture,
but the distraction
of the family soon
fixed that. With
Dad, the election,
Topping things back
there, and me
working in the
front, we got one
of the best pictures

on that television
you could ask
for.

As you can tell
by the indicated
time in the left
corner of the first
page, it is almost
time for school.

I will write again
as soon as possible
but until then,
take care.

Love,
Bonnie

P.S. Write when you
get a chance but
don't let it interfere
with your work.
